GIRIJA SHANKAR VAJRAPU

AI Architect / Forward Deployed Engineer — Enterprise Finance & SAP

Hyderabad, India — remote (IST; overlaps UK/US hours) · +91 73963 13939 · vajrapushankar@gmail.com

15 years at one intersection: ~12 architecting SAP FICO / SAP Analytics Cloud FP&A systems for global enterprises, and 3 shipping production GenAI end to end as a solo founder. I sit with finance teams, read their ERP, and deploy AI workflows they actually adopt — discovery to production, alone or leading a pod.

SELECTED PROOF

- **AR-collections agent in production** — QuickBooks Online + n8n: ledger sync, 4-level reminder escalation, stop-on-payment reconciliation, owner digest. Designed, built and operated solo (2026).
- **14-market FP&A transformation** — architected SAP Analytics Cloud planning (P&L, balance sheet, OpEx/CapEx, workforce, cash, commodity forecasting) for Nomad Foods' European markets, at Wipro.
- **LLM products shipped end to end** — subscription-billing SaaS, automated appointment-reminder workflows, an LMS: RAG, multi-agent orchestration (LangGraph, LangChain, AutoGen, CrewAI), MCP/tool-use, human-review guardrails.

EXPERIENCE

Founder & Director / Product Architect

QuantumRush — self-funded SaaS & AI venture, remote India · Nov 2023 – present

- Shipped LLM-powered products end to end on Python (Django/FastAPI), PostgreSQL, React/Next.js; cloud deployment and operations; sole technical decision-maker.
- Applied GenAI in production: LLM API integration, prompt engineering & evaluation, RAG/retrieval workflows, multi-agent orchestration, MCP/function-calling, human-review guardrails.
- 2026: built and operate an accounts-receivable dunning engine over QuickBooks + n8n (sync → escalation → stop-on-payment → owner digest) and several Cloudflare Workers PWAs (CRM, operations trackers) — customer-environment deployment work, solo.

Architect, FP&A Transformation

Wipro Ltd — client: Nomad Foods, UK · May 2022 – Nov 2023

- Architected a SAP Analytics Cloud FP&A transformation across 14 international markets: P&L, balance sheet, OpEx, CapEx, workforce, cash, working capital and commodity forecasting.
- Designed SAC stories, data actions and value-driver trees; led predictive-analytics and forecasting PoCs; guided migration from legacy planning to unified SAC.

Senior Analyst / Offshore Lead, FP&A Systems

Tyson Foods — via Oaklawn IT Solutions, India/US · Jul 2019 – May 2022

- Led offshore SAP planning support for a global food manufacturer; FP&A reporting and forecasting; demand & commodity forecasting; predictive-planning PoCs.

Functional Consultant, Finance Systems

Tata Consultancy Services — clients: Astellas Pharma; F. Hoffmann-La Roche · 2015 – 2019

- SAP BPC, BW-IP and FICO across budgeting, planning, consolidation and month-end close for global pharma; multinational stakeholder management.

Senior Manager / Manager

R.K. Agro Engineering · Pioneer Alloy Castings, India · 2010 – 2014

- Translated manufacturing and business processes into ERP requirements; delivered SAP Business One; stakeholder workshops, training, adoption.

SKILLS

ERP & Planning: SAP S/4HANA, ECC, FICO, BW/4HANA, BW-IP, SAP BPC, SAP Analytics Cloud (certified: SAC Planning, 2023), SAP Business One

AI / GenAI: LLM APIs, RAG & vector databases, multi-agent orchestration (LangGraph, LangChain, AutoGen, CrewAI), MCP / tool-use / function-calling, prompt evaluation, ML foundations (regression, classification, forecasting)

Engineering: Python (Django, FastAPI, Pandas, Scikit-learn), SQL (PostgreSQL, MySQL), JavaScript (React, Next.js), n8n, Git, REST APIs, Cloudflare Workers

Analytics: Power BI, Tableau, Advanced Excel, dimensional modelling, ETL

EDUCATION & CERTIFICATIONS

Advanced Management Program in Business Analytics — Indian School of Business (ISB), Hyderabad, 2023

SAP Certified Application Associate — SAP Analytics Cloud: Planning, 2023

MBA — University of Greenwich, London, 2010 · **B.Sc. Information Technology** — KSOU, 2006

Languages: English, Hindi, Telugu · Domains: global manufacturing, food and pharma; stakeholders across India, UK, US and 14 EU markets.
